Question Taken on Notice

Question taken on notice by Chris Steel MLA on 2 March 2020, p.97 of the Uncorrected Transcript:

THE CHAIR: That is a take on notice one, I am happy for that. Could I also ask, in relation to light rail, where are we with the defects on stage 1, have we worked through all the defects on stage 1 and addressed them with the consortium?

Mr Steel: Yes, we have progressed in doing that and I think we will take that on notice as well because the team—MPC may have some further additional stuff to add.

The Answer to Question Taken on Notice by Minister Chris Steel as Minister for Transport in connection with Capital Initiatives for Light Rail, considered in hearings of 2 March 2020 is as follows:

The light rail Project Agreement contemplated that operations would commence with certain physical works to be completed or rectified during the operations period. Most of those works have now been resolved and appropriately treated, with operations maintaining exceptional levels of reliability.
