Committee Secretary

I am concerned about the planning and postioning of the SPIRE buidling.

As an ex teacher I am concerned about the noise an emergency department opposite a primary school will have on children's learning outcomes.

In addition, I am concerned about the safety of children in the vicinity of increased traffic and ambulance movements on a residential street.

Surely there is a better site where the new emergency could front Yamba Drive for better ambulance access on a main street away from residential areas.

Regards
