Dear Sir/Madam,

As a result of advice in James Milligan's news letter I am reporting a tree that was brought down during the severe storm which hit Canberra.

The tree is across an unmade but frequently used path along the Barton Hwy between the curved ends of Nambucca and Woronora Sts in Kaleen.

This path, off the highway and along the sound barrier bank, is used mainly by cyclists (even though there is a cycle lane along the Hwy), dog walkers and also rambblers.

A path around the base of the tree is developing through use, so it would be good to have the tree removed before further remedial work is needed. The tree would also be very dangerous for anyone using the path at night.

I hope this tree can be removed in the near future.

Yours sincerely

Marilyn Brocklebank

P.S. I believe this path is used by school kids to ride (off road) all the way to both primary & high schools

Rory and Marilyn .
