Question: Please provide three examples of budget decisions changed in your portfolio as a direct result of applying the wellbeing impact assessment. Please provide three examples of budget decisions changed in your portfolio as a direct result of applying the gender analysis tool.

Answer: The answer to the Member's question is as follows: –

The Commission completed a wellbeing impact assessment as part of its submission for additional resources in the most recent budget process. As the Commission is not privy to the deliberations of government in relation to its budget proposal, the Commission is unable to answer the honourable member's question about whether decisions were changed as a direct result of the wellbeing impact assessment.

The Commission was unaware of the gender analysis tool, nor was it asked to complete it as part of the most recent budget process.
