Incident Details

Incident Type	Reg 175-Any circumstance arising at the service that poses a risk to the health, safety or wellbeing of a child or children attending the service
Please supply the following information: -Detailed description of the incident including nature of risk, cause etc -Detailed description of impact on the operation of the service -Involvement of emergency services or other authorities (if relevant) -Action taken by Approved Provider to manage the risk -Any other relevant information	The service rarely experiences fumes from the carpark outside our playground. To mitigate this issue we did a "Shelter in Place" version of a lockdown. What this means is that we all entered the care rooms, closed doors and put cushions at the doors to stop any fumes entering the space. We also turned our big fans on to blow the fumes out of our outdoor space. This shelter in place was just before lunch so we stayed inside till after rest time and then entered our outdoor space which was suitable for care again. All educators and children happily moved from the outdoors to indoors. This is being reported as P01 who was present on Thurs and Friday as our Authorised Officer suggest this should be done. We rarely experience fumes from the carpark and usually our fans can mitigate this risk. We did this with our children and educators to keep them safe.
Incident date	24/03/2021
Risk due to	Localised Issue
