Subject: reopening of Hall School

Dear Committee members,

I wish to advise that we are one of the many families living across the ACT boarder in NSW but most of our working/daily lives is spent in the ACT.

Since the arbitrary closure of the Hall School our and many neighbor families have had to significantly adjust our daily lives to accommodate and ACT govt that has taken an arbitrary action to close a small but essential local school purely on financial grounds with no consideration for ACT 'boarder' residents who do not appear in your voter demographics.

Please re-consider the opening of the Hall primary school as a very serious and essential matter for small local communities in light of your own (ACT Govt Towards 2020) policy.

The continued impact of this school closure ensures that the next election will not be decided by a convenient coalition but an outright victory for an opposition that is responsive to the electorate.

Regards

Ralph Meyen
Hall ACT 2618
