Subject: Submission in favour of DVP 307 Griffith Zoning

Dear Sir/Madam,

While there seem to be a few objectors to the proposal to permit residential on the Brumbies site in Griffith, I would like to inform ACTPLA of my strong support for the project and the required change to the Territory Plan. It seems that these objectors are a vocal minority with vested interests who are opposed to change in whatever form it comes. To me they represent the sort of people who would have us go back to the era of hansom cabs and blotting paper if they could. I cant see anything wrong with the site being redeveloped for residential purposes and welcome the opportunity of being able to consider purchase of a unit myself.

Yours sincerely,

Norm Honey
