To: Standing Committee on Planning and Urban Renewal

Dear Committee Members,

I write respectfully requesting that the existing legislation in relation to the placement and usage of Billboards within the ACT remain unchanged.

The legislation has served the ACT Community well in providing a largely visual noise-free environment in keeping with the "Bush Capital" feel Canberra and it's visitors is fortunate to enjoy.

Any changes that would see more advertising or other billboards being placed within the ACT would only be of long term detriment to the feel of the region. As such I urge the Committee to ensure the legislation remains in it's current strong form.

Yours Sincerely,
Hugh Blemings
