In relation to: Building Energy Efficiency Upgrade Fund – Compliance checks of completed works

MR PARTON: All right. Finally - and I think part of this was answered with Dr Paterson's questions - I just want to know exactly what compliance checks are in place for the government to confirm that the works have been completed as per the grant?

Mr Rattenbury: Under the DSSF or the—

MR PARTON: The building energy efficiency upgrade fund?

Mr Rattenbury: Let me take that one on notice for you, because officials that do the compliance are not here today.

MR PARTON: Yes, all right. Thank you.

Shane Rattenbury MLA, Minister for Gaming: The answer to the Member's question is as follows:

Once a club has signed up to the program an EPSDD energy efficiency assessor visits the site, assesses electrical equipment currently in the premises and provides a tailored report on actions/upgrades that can be taken including appliance replacement.

A preapproval form is submitted to EPSDD with quotes for upgrade works which is checked and reconciled against the assessor's report.

Once works are completed the Club submits a rebate claim form signed by the licensed electrician responsible for completing the works to confirm the preapproved upgrades have been undertaken.

Where required by law a certificate of electrical safety is completed by the electrician. The rebate is paid to the club when all compliance steps have been satisfactorily completed.

As at 23 August 2022, 18 clubs have been inspected and have received assessments.
