Capture3.PNG	3

## Incident Management

Steps that were taken or will be taken to prevent or minimise this type of incident in the future

Detailed description of the incident including nature of risk, time, cause, etc.

We received an email (attached) from a family alleging that an educator was spraying a child with a water bottle to manager behaviour and was threatening to 'get him in trouble' if he kept crying.

We commenced an investigation and spoke to the educator, the assistant director and educators who according to the working directly with children records had been in the room with that child.

I spoke to the family to gain an understanding of their concerns, this was documented in an email (attached)

The investigation found that there was nothing to note and that the child who attends Thursday-Friday is taking some time to transition between preschool (Mon-Wed) and returning to childcare at the end of the week.

The water spraying game is a long standing game in the preschool room that the children love and instigate we have spoken to all staff to remind them that as part of the game they are seeking consent from children to play and ensuring there is adequate opportunities for children to play in other areas or other activities.
