The SLA has previously advised that as at 11 August 2025 it had 63 sites with requirements for public, community and affordable housing that had not been sold - which was a total of some 1011 dwellings. As of now how many sites does the SLA have with public, community and affordable housing requirements that have not yet been sold? Are some of the 63 sites still unsold and why? Can you tell me how many new blocks of land for public, community and affordable housing have been identified for release in 2026-2027?
