Subject: Re: Megalo a permanent home at Fitters Workshop

To Whom it may concern,

The intention of my e-mail is to have my support for Megalo registered and to endorse the prospect of this printmaking institution moving permanently to the Fitters Workshop.

Having the Fitters Workshop organised to house Megalo for member printmakers and artists in residence with studio spaces and a gallery, will definitely enhance the Kingston Foreshore Precinct and add much to what Canberra can contribute to the nation in a creative capacity.

The Fitters Workshop as a prospective permanent home for Megalo Print Studio and Gallery is an ideal neighbor to the Glass works.

I am a printmaker and a member of Megalo and I have been associated with this organisation as it has undergone various changes of location since the early 1980's.

Deborah Metz.
