

Dear Sir

I am writing in support of the Brumbies proposal to seek a variation to the Territory Plan No.307 – Griffith, Section 42, Block 15 to allow for residential development.

I support the Brumbies building program at Griffith which is in keeping with the governments urban infill program.

I lived on Captain Cook Crescent for 20 years in my youth, I played sport on Griffith oval and know area very well. When I look at the area now I see the failed Bowling club and surrounds and can only see advantages from the Brumbies proposal. It is a shame in Canberra that a very small section of the community that is not representative of the majority can stop a well thought out development that will benefit Canberra from proceeding.

Yours Sincerely

Michael Kennedy
