RE: Inquiry into Billboards

20 June 2017

To whom it may concern,

I am writing as an ACT citizen to raise my concerns about changes to billboard rules in the ACT. I am very appreciative of having so few billboards around Canberra and would like to see no further changes to the rules.

I enjoy that as my family and I move around the city, engaging in our day-to-day life, we are not constantly exposed to billboard marketing and advertising messages. I am opposed to any loosening of the restrictions on billboard advertising, particularly anything that would allow billboard advertising along the new Northbourne Ave light rail corridor. Please keep billboards off our roadsides and public amenities.

Thank you for your consideration.

Kind regards,
