Subject: RE: Admin and Procedure Committee inquiry - School visits protocols [SEC=UNCLASSIFIED]

Dear Admin and Procedures

I have visited ACT schools twice in this term. The first was Mt Stromlo High School in 2017. An enthusiastic teacher tried to invite his local MLAs to talk to the students. This took months to organise because he did not realise that he needed ministerial approval and then the minister's office took a while changing dates. All 5 local MLAs were invited and I really think he should have been supported in his attempt to introduce his students to how there government works.

The second was when I accompanied Minister Rattenbury to an ACTSmart event at a school. I did not organise that but I understand it took a lot of organising with the minister's office.

I have never tired to initiate a visit myself.

Best wishes

Caroline

Members

Please find attached a request from the Standing Committee on Administration and Procedure relating to its inquiry into the protocols for school visits.
