Hello

I would like to take the opportunity to voice my opposition to the Environment Protection (Fossil Fuel Company Advertising) Amendment Bill.

It's an attack on company free will and overly restrictive on their ability to choose to re-invest revenue into healthy social outcomes.

I feel there is a disconnect between this proposal and an understanding on how sport generates revenue.

It will damage sports' ability to play its part as a focal point of positive social engagement and community connection.

Clubs and sport need these types of investment and this Bill would lead to reduced revenues for sport, impacting their ability to deliver the product we currently see and enjoy together.

It may influence fixturing decisions of major sports and restrict Canberra's ability to attract major events. Events that drive visitation and deliver a positive economic impact for the region.

Regards

Alex
