

Inquiry into annual and financial reports 2024–2025

Answer to question taken on notice

Asked by: Mr Taimus Werner-Gibbings MLA

Addressed to: Minister for City and Government Services

In relation to: Roads ACT and Internal and contracted resurfacing

Hearing: 13 November 2025

Uncorrected Proof Transcript: p 31

Transcript provided: 19 November 2025

Answer Due: 26 November 2025

Mr Werner Gibbings: I suspect from the feedback I get, that would be useful. So talking about the contractors, you said most of the work is done, which therefore is not all. What is the split? What is the proportion between the work that is contracted and the work delivered internally?

Mr Rampton: Okay. So at the moment, I have a small asphalt crew, and for this road resurfacing season, I have them out doing what we call prep patching. So before we do a reseal on a road, which is the top layer of the spray seal, we go and repair some of the damaged sections of road, so we are not just putting a bandaid over a broken road.

My internal crew is working on a package. I believe it might be Municipal Road South, and they are focused on that. So in previous years, that has been also sent out to external contractors, and I have had the asphalt crew working on sort of reactive maintenance, and this year, they are doing both. So they are working on reactive maintenance, but they are also doing that prep patching for one of the packages for the road resurfacing program.

Mr Werner Gibbings: Yes. Are you able to provide a general sort of split internal work, contracted work? It can be on notice, that is fine, but I would be interested.

Mr Rampton: Yes. It is a small proportion. It is not a big chunk of the program, but I could give an estimate of it, yes. I will take that on notice.

Ms Tara Cheyne: The answer to the Member's question is as follows:

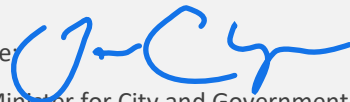

In the 2024-25 financial year, a total of 1,264,913 m² of road was resurfaced (reseal and asphalt treatment), of which 22,000 m² (asphalt treatment) was completed by the small internal crew of Roads ACT.

OFFICIAL

In the 2025-25 financial year, the internal crew is expected to undertake 25,800 m² of road resurfacing (asphalt treatment) with the total financial year target being 1,260,000 m².
