

Operation CatPacity: Food support

By purchasing food for foster carers we were able to commit to them that if they were to foster care for us during this period we would be able to support them by providing cat food.

While we initially planned to assist with cat litter as well, we found that people have strong preferences for specific litter types. Focusing solely on food proved to be more practical and beneficial.

The cost of pet food has risen sharply in recent years, affecting both premium brands from specialty stores and supermarket options. For many in the Canberra community, the expense of feeding foster cats had become unaffordable. The cost of having to feed foster cats was acting as a deterrent for volunteering to take on foster cats to socialise. Although we had previously supported carers through donated food, these food donations were irregular and unpredictable.

Our ability to guarantee food supply made a significant difference in attracting and retaining foster carers. With the ongoing rise in living costs, providing essential items like food is crucial to supporting and sustaining our volunteer network.

Initial advertisement of food support for carers within our private foster care Facebook group

The availability of food support through the ACT Government grant was initially advertised through the private Facebook group set up for carers who are part of our Streets to Sheets foster carer program. The response was overwhelmingly positive.

Purchase of food for foster carers

Food was purchased through our partnership with Royal Canin. This meant that foster carers were provided with high quality food for the cats or kittens in their care.

In total, through operation Catpacity we have been able to purchase **343kg** of food, consisting of **101kg of wet food** and **242kg of dry food** for our foster carers as shown in Table 1.

Table 1: Food purchased as part of Operation CatPacity

Type of food (Royal Canin brand)	Number of units	Kg
Wet food		
Baby Cat Mousse (box of 12 cans of 195grams)	30	70.2
Kitten (Wet food pouches - Gravy) 12 X 85grams	13	13.3
Kitten (Wet food pouches- Jelly) 12 X 85grams	10	10.2
Kitten (Wet food pouches- Loaf) 12 X 85grams	6	6.1
Sensory taste- adult cat wet food (12X85grams)	2	2.0
<i>Wet food subtotal</i>	61	101.8
Dry food		
Kitten PRO Bag 13kg	8	104.0
Digestive care adult 4kg	1	4.0
Mother and baby cat Dry food 10kg	7	70.0
Kitten Dry food 10kg	3	30.0
Indoor Adult 10kg	3	30.0
Kitten dry food 4 kg	1	4.0
<i>Dry food subtotal</i>	23	242.0
Total	84	343.8

A further donation of wet food from a major premium pet food brand meant that we were able to provide even further support in the form of wet food provisions.

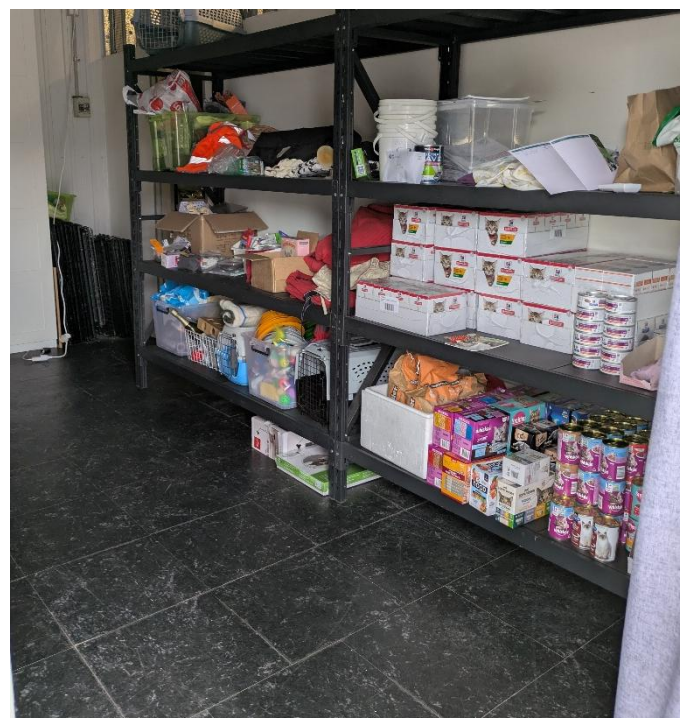

Distribution of food to foster carers

At the start of the program our initial distribution involved dividing the large bags of dry kitten food into smaller bags of approximately 2kg each. These provisions were then transported either directly to foster carers or left at our storage facility for carers to help themselves.

We then slightly changed the process to make it more efficient. Our main storage facility was rearranged to make space for some large shelves to hold food for foster carers.

A large tub (not shown in photo) filled with Royal Canin kibble is available 24/7 and carers are able to bring their own packaging to fill up as needed.
