

NHMRC FUNDED GRANTS IN THE ACT 2005

ATTACHMENT A

Grant Types: All NHMRC Grant Types

State: ACT

Where: 2005 Budget > 0

Report Run: As at 10 Feb 2005

Source: www.health.gov.au/nhmrc/funding/funded/outcomes/dataset.htm

Grant Id	CIA	Admin Institution	Grant Subtype	Simplified Title	Start Yr	Total Awarded
268077	Ms Rosemary T Ford	Australian National University	Public Health Postgraduate Scholarship	How do nurses deal with illicit drug users	2004	\$ 38,971
224278	Prof Ian A Ramshaw	Australian National University	Development Grant	A new vaccine for HIV	2003	\$ 120,700
268078	Miss Sanchia Shibasaki	Australian National University	Training Scholarship for Aboriginal Health Res	The development and practical application of epidemiological skills within Indigenous Health	2004	\$ 62,158
224280	Dr Darren M Roberts	Australian National University	Medical Postgraduate Scholarship	Effect of sodium bicarbonate on pharmacokinetics and pharmacodynamics in clinical toxicology.	2003	\$ 88,719
316982	Ms Sarah C Gill	Australian National University	Public Health Postgraduate Scholarship	Workforce participation, mental health and well being in older adulthood	2005	\$ 62,511
224263	Dr Michael R Ibbotson	Australian National University	Standard Project Grant	Coding mechanisms in Visual Cortex	2003	\$ 200,500
224243	Prof Kieran Kirk	Australian National University	Standard Project Grant	Ion transport in the malaria parasite	2003	\$ 235,500
224227	Dr Aude M Fahrer	Australian National University	New Investigator Grant	"Nessy": a new gene important for correct development of the immune system.	2003	\$ 250,500

224229	Dr Stefan Broeer	Australian National University	Standard Project Grant	Brain glutamine transport	2003	\$	255,500
224240	Dr John M Bekkers	Australian National University	Standard Project Grant	Brain circuits underlying the sense of smell	2003	\$	250,500
148902	Prof Ian A. Clark	Australian National University	Research Fellowship	Malaria and Reye's syndrome overlap	2001	\$	410,617
224219	Prof Caryl E Hill	Australian National University	Standard Project Grant	Structural proteins important for relaxation of blood vessels	2003	\$	282,750
224226	Dr David J Tremethick	Australian National University	Standard Project Grant	How genes are packaged to control gene readout	2003	\$	267,750
224248	Prof Stephen J Redman	Australian National University	Standard Project Grant	How different sources of calcium mediate synaptic plasticity	2003	\$	267,750
224262	Dr Mario Lobigs	Australian National University	Standard Project Grant	Flavivirus assembly and host-pathogen interactions	2003	\$	285,000
224233	Dr Greg J Stuart	Australian National University	Standard Project Grant	How nerve cells remember	2003	\$	324,750
148948	Dr Bryan Rodgers	Australian National University	NHMRC Research Fellowship	Centre for mental health research - Unit Grant	2001	\$	518,856
148950	Dr Hilary S Warren	Australian National University	NHMRC Research Fellowship	Receptors & ligands regulating human NK cell proliferation	2001	\$	519,074
179840	Dr Mark S Clements	Australian National University	Public Health (Australia) Fellowship	Multi-state population models for smoking & burden of disease	2002	\$	257,177

179841	Dr Dianne C Webb	Australian National University	Peter Doherty Australian Biomedical Fellowship	Characterisation of the signalling pathways utilised by IL-13 independently of IL-4R chain to mediate aspects of allergy	2002	\$ 258,078
268011	Dr Cathy L Banwell	Australian National University	Primary Health Care Project Grant	Choice or chance: contraceptive use by women with hepatitis C	2004	\$ 260,150
148944	Prof Helen M Christensen	Australian National University	NHMRC Research Fellowship	Centre for mental health research - Unit Grant	2001	\$ 529,606
151311	A/Pr David O. Willenborg	Australian National University	NHMRC Research Fellowship	Ongoing Uncoupled Research Fellowship	2001	\$ 562,382
224235	Prof Angela F Dulhunty	Australian National University	Standard Project Grant	PROTEIN/PROTEIN INTERACTIONS BETWEEN TWO CALCIUM CHANNELS	2003	\$ 410,250
224237	Prof Angela F Dulhunty	Australian National University	Standard Project Grant	SPECIFIC MODIFICATION OF RyR ACTIVITY	2003	\$ 411,000
148945	Prof Ian A. Clark	Australian National University	NHMRC Research Fellowship	iNOS, paediatric falciparum malaria, and aspirin	2001	\$ 651,717
148947	Prof Anthony F Jorm	Australian National University	NHMRC Research Fellowship	Centre for mental health research - Unit Grant	2001	\$ 651,717
170210	Prof David S. Hirst	Australian National University	NHMRC Research Fellowship	Control of gastrointestinal motility by interstitial cells and neuronal projections	2001	\$ 651,717
268015	Prof Niels G Becker	Australian National University	Standard Project Grant	Do certain short-term activities trigger illness? In particular, does air travel trigger illness due to blood clots?	2004	\$ 212,250
224245	Dr Kevin J Saliba	Australian National University	Standard Project Grant	Vitamin metabolism in the malaria parasite	2003	\$ 428,250

224264	Prof Christopher C Goodnow	Australian National University	Standard Project Grant	Mechanisms controlling antibody production	2003	\$ 452,125
151304	Dr Hilary S Warren	Australian National University	Research Fellowship	Understanding human NK cell proliferation	2001	\$ 692,040
224249	Dr John D Clements	Australian National University	Standard Project Grant	Understanding how information is processed in the brain, and how neuroactive drugs alter this processing	2003	\$ 370,500
268013	Dr James RG Butler	Australian National University	Standard Project Grant	The relationship between mortality, morbidity and inequalities in income distribution in Australia	2004	\$ 232,175
268032	Prof Trevor D Lamb	Australian National University	Standard Project Grant	Recovery of human night vision following intense light exposure	2004	\$ 272,250
224265	Prof Christopher C Goodnow	Australian National University	Standard Project Grant	Mechanisms causing organ specific autoimmune disease	2003	\$ 456,000
224256	Dr Bruce Walmsley	Australian National University	Standard Project Grant	Communication between neurons in the brain	2003	\$ 460,500
224209	Dr Frances Shannon	Australian National University	Standard Project Grant	Gene expression in an immune response in the nuclear context.	2003	\$ 477,500
224200	Dr Dorothy H Broom	Australian National University	Standard Project Grant	Effects of parental working conditions on children's health	2003	\$ 482,385
224206	Dr Charmaine J. Simeonovic	Australian National University	Standard Project Grant	Major porcine antigens for the generation and modulation of immune responses to neovascularised pig tissue xenografts	2003	\$ 504,750
268060	Prof Jonathan Stone	Australian National University	Standard Project Grant	Genetic and environmental factors in degenerative diseases of the retina	2004	\$ 269,250

145614	Prof David S. Hirst	Australian National University	Research Fellowship	Control of gut movements by nerves and internal pacemaker cells	2001	\$	845,540
179839	Dr Kaarin Anstey	Australian National University	Population Health CDA	Antecedents and consequences of cognitive decline and depression in late life	2002	\$	473,250
224274	Dr Alison J Shield	Australian National University	Peter Doherty Australian Biomedical Fellowship	Functional genomic studies of the human glutathione-S-transferase omega (GSTO) family	2004	\$	262,750
179830	Dr Gunasegaran Karupiah	Australian National University	NHMRC Research Fellowship	Uncoupled Research Fellowship	2002	\$	555,750
316913	Prof Ian A Hendry	Australian National University	Standard Project Grant	The proteins that carry survival signals from nerve terminals to cell bodies	2005	\$	243,000
268058	Prof Francis J Bowden	Australian National University	Standard Project Grant	Screening for genital chlamydia with routine Pap smears in general practice: A randomised controlled trial	2004	\$	350,500
316932	Dr Greg J Stuart	Australian National University	Standard Project Grant	Actions of acetylcholine on neurons	2005	\$	258,000
316937	Prof Angela F Dulhunty	Australian National University	Standard Project Grant	splice variants of RyR1 and myotonic dystrophy	2005	\$	258,000
316970	Dr Peter J Butterworth	Australian National University	Public Health (Australia) Fellowship	Welfare receipt, social exclusion and mental health	2005	\$	264,000
268027	Prof Philip G Board	Australian National University	Standard Project Grant	New Ion Channel Modulators	2004	\$	402,000
268046	Prof Peter W Gage	Australian National University	Standard Project Grant	Effects of mutations on inhibition in the brain	2004	\$	417,750

358672	Dr Ann M Hughes	Australian National University	Sidney Sax Overseas Public Health Fellowship	Epidemiological studies of association between immune deficiency and cancer and sunlight and immune-related disorders	2005	\$	293,890
316977	Dr Lixin Rui	Australian National University	CJ Martin Overseas Biomedical Fellowship	The role of the NF-kB pathway in primary mediastinal B cell lymphoma	2005	\$	298,457
316978	Dr Yang Wang	Australian National University	CJ Martin Overseas Biomedical Fellowship	Effect of innate immune responses in virus control	2005	\$	300,762
316901	A/Pr Anne-Louise Ponsonby	Australian National University	Standard Project Grant	The role of EBV and HHV-6 viral infection in early multiple sclerosis.	2005	\$	305,800
268037	Dr Geeta Chaudhri	Australian National University	Standard Project Grant	Role of TNF in host-virus interactions and the outcome of infection	2004	\$	496,500
268039	Dr Juleen A Cavanaugh	Australian National University	Standard Project Grant	Identification of the genes involved in susceptibility to inflammatory bowel disease	2004	\$	527,250
316939	Prof Trevor D Lamb	Australian National University	Standard Project Grant	The first stage of vision, probed with a scanning laser ophthalmoscope	2005	\$	352,000
316933	Prof Kieran Kirk	Australian National University	Standard Project Grant	The metabolome of the malaria parasite	2005	\$	368,875
316907	Dr Shin-Ho Chung	Australian National University	Standard Project Grant	Studies on Ionic Channels of Excitable Membranes	2005	\$	381,000
316959	Prof Robert B Saint	Australian National University	Standard Project Grant	Understanding the events that cause epithelial cells to dissociate and become migratory.	2005	\$	409,500
316949	Dr JOSEPH G ALTIN	Australian National University	Standard Project Grant	A NOVEL APPROACH FOR TARGETING DNA TO DENDRITIC CELLS FOR VACCINE DEVELOPMENT	2005	\$	430,250

316928	Dr EDWARD M BERTRAM	Australian National University	New Investigator Grant	CD8+ T cell immunity to viral infections	2005	\$	438,750
224213	Prof Peter W Gage	Australian National University	NHMRC Research Fellowship	unexpected effects of drugs such as diazepam	2003	\$	773,750
316942	Dr Gunasegaran Karupiah	Australian National University	Standard Project Grant	How do neutrophils and dendritic cells contribute to the immune response to virus infections	2005	\$	469,500
316955	Prof Philip G Board	Australian National University	Standard Project Grant	Pharmacogenetic investigations of glutathione transferases	2005	\$	471,000
316927	Dr David J Tremethick	Australian National University	Standard Project Grant	How does gene packaging control cell growth and specialization?	2005	\$	504,000
316914	Prof Christopher C Goodnow	Australian National University	Standard Project Grant	Identifying new lupus genes in humans using information from mouse mutagenesis	2005	\$	518,500
316917	Dr Frances Shannon	Australian National University	Standard Project Grant	Gene expression and T cells	2005	\$	534,000
268053	A/Pr Nicholas A Buckley	Australian National University	International Collaborative Research Grant	Reducing deaths from pesticide poisoning - Establishing a regional toxicology research centre.	2004	\$	738,729
316911	Dr Shin-Ho Chung	Australian National University	NHMRC Research Fellowship	Uncoupled Research Fellowship	2005	\$	626,250
179843	Prof Anthony J McMichael	Australian National University	Burnet Awards	Burnet Award	2002	\$	2,000,000
316956	Prof Christopher C Goodnow	Australian National University	Standard Project Grant	Investigating how a mutation in the Roquin gene causes lupus	2005	\$	721,250

268055	Dr Adrian C Sleigh	Australian National University	International Collaborative Research Grant	Thai health-risk transition: a national cohort study	2004	\$ 1,231,215
219167	Prof Christopher C Goodnow	Australian National University	JDRF/NHMRC Type 1 Diabetes Collaborative Res Grants	MAPDB study	2001	\$ 3,348,000
224215	Prof Anthony J McMichael	Australian National University	Population Health Capacity Building Grants	Environment and population health: research development from local to global	2002	\$ 2,472,500
268084	Prof Christopher C Goodnow	Australian National University	Special Facilities	Australian Phenome Bank	2004	\$ 1,500,000
224207	Dr Paul S Foster	Australian National University	Program Grant-Teams	Regulation of Allergy and Inflammation	2003	\$ 4,875,000
179805	Prof Anthony F Jorm	Australian National University	Program Grant-Teams	Causes and treatments for common mental health problems in the community	2002	\$ 7,750,000
316951	Dr James RG Butler	Australian National University	Health Services Res(Economics & Financing of Hlth)	ACERH- Inovative analyses of health insurance, ageing and the economic burden of illness and injury	2005	\$ 4,599,000
