ACT Legislative Assembly

Folks...please do not relax, change or alter regs/laws/legislation associated with current restrictions on billboards in the Territory. There are many good planning elements held dear by longtime Canberrans, including no front fences, no billboards and lottsa round-abouts, and there is no good evidence I have seen to suggest we need billboards blotting our land- and streetscapes.

I should appreciate your confirmation that this brief submission will be considered by the committee/MLAs.

Kind regards

Sandi Logan
