Subject: Billboard advertising

Categories: PUR

I wish to make a private submission to the current inquiry regarding billboards in the ACT. Please do not post this online.

Currently Canberra has beautiful vistas wherever you look, unlike other cities across Australia. Why does Mr Barr feel the need to change the current legislation and wreck our beautiful views.

There is already plenty of advertising on busses and now also at bus stops.

It's possible to see how bad advertising can get when you see what happens during ACT elections and the horrible candidate signs that go up everywhere.

This is clearly a revenue raising idea put forward by the government.

Please make NO changes to the current legislation.

Regards
Jac Kotek
