Submission to the Inquiry into Billboards by the Standing Committee on Planning and Urban Renewal

Submission by Paul Bissett

I am strongly opposed to the introduction of ANY billboard advertising in the ACT.

Dear Committee,

I would like my opinion known that I oppose the introduction of billboards in Canberra's public spaces. The lack of billboards is one of the great things about Canberra. The introduction of advertising on some bus stops has already changed the streetscapes. We should not go any further down that track.

Other cities are trying to claim back some of their public spaces from advertising.

Advertising can be a bad influence on children and the vulnerable.

We have a beautiful city and we shouldn't diminish that.

Our public spaces should not be for rent.

Yours sincerely,

Paul Bissett
