Dear Mr Parton

I write to you following the release of the Proof Transcript of Evidence from the hearings held on Thursday 20 July 2023. Upon reading the transcript on page 423, I have realised that I misspoke regarding the extent of ACAT appeals to development application processes being the cause of delays to public housing developments.

I feel that my comments on pages 432-433 sufficiently convey the other variables that commonly cause delays in the construction of new and redeveloped public housing properties. However, for clarity I would like to advise that the word “many” would have been better employed than the word “most” in the following answer to Ms Clay’s question represented on page 423.

MS CLAY: Is there a more useful way for me to get the information that is less onerous?

Ms Berry: I can tell you that most of the public housing builds have a development application process and are appealed.

Changes to any records necessary and circulation to the committee would be appreciated.

Yours sincerely
