- (b) the ACT Budget has population growth of 2.25 percent in 2023-24 and two percent across the remainder of the forward estimates, which equates to over 9,000 people per year;

- (c) conservative modelling shows 1,883 residential dwellings will only be able to accommodate 4,500 of the forecasted new residents in the ACT;
 - (d) effective city planning is shaped by the social, environmental, and cultural preferences of the community;
 - (e) the most recent Housing Choices Community Survey released in 2015, known as the Winton Report, found that only two percent of ACT residents want to live in high density apartments;
 - (f) the survey further found that more than 80 percent of Canberrans preferred to live in detached or semi-detached dwellings; and
 - (g) the growth in stock of attached dwellings is inconsistent with community preferences, exacerbating the housing affordability crisis; and
- (2) calls on the ACT Government to:
- (a) auction unsold single blocks for sale by the Suburban Land Agency to find the market price so houses are built on these blocks as soon as possible;
 - (b) commission a new Housing Choices Community Survey to determine the most up-to-date dwelling preferences of ACT residents;
 - (c) as the monopoly provider of land, commit to investigating underutilised and undeveloped sites around Canberra for the development of detached housing; and
