**Subject:** Municipal Services Hahahahaha

Please thats funny.

I would love to know the funding this service has misused and blown in Canberra over the last 20 years or where it even actually went?

Municipal Services. These words make me laugh... born and bred here in Canberra I haven't seen a street sweeper or a line marker or anything similar since I was kid. I used to see them frequently. Its well known the one street sweeper in [REDACTED] only frequently visited the suburb he lived in during the day. For lunch or a rest i guess. No one has seen them anywhere else. Neither has our roads if you take notice. I'm on them every day. Weeds everywhere you look graffiti curbs and drains full of leaf litter and garbage all belnding in with un mowed grass. As of recent i have seen people cleaning along side roads. Everyone knows municipal services and fix my street have just been doing Jack for way to long and rawting the system any and all reviews investigations and inquiries are welcome and 15 to 20 years overdue. I reported multiple lights out at our local park that posed serious safety risks on the playground i lost count how many times over a period of three years. Now 4 years later finally fixed. I reported lawns not being mowed six years straight nothing ever changed. According to the schedules they were meant to do it 6 times a year my cctv footage confirms they only visited some years only 3 times and each time they come they do less and less. They used to mow to fence line of farm land now lucky if the mow either side of a footpath cutting corners. Basically municipal services has been left to its own devices for to long and our city looks terrible for it. Have some pride do the work and someone over see it and make sure that it happens. Just like any work place please as we pay for it actually we are paying more than ever now. Hold who ever accountable and ' Fix our City' bring it up to scratch make it the best place to live somewhere that makes us proud. We are the capital.

This is well overdue. I hope to notice a difference.

Thanks.
