Notices

1 **MR COE**: To move—That this Assembly:

(1) notes that the Auditor-General released a report entitled *Delivery of ACTION Bus Services* which included the following findings:

(a) the activities of ACT Government agencies involved in the delivery of public transport were not well coordinated;

(b) the Department of Territory and Municipal Services has not fully complied with key legislation including the ACT *Road Transport (Public Passenger Services) Act 2001* and regulations, the Minimum Service Standards for Bus Services, the ACT *Discrimination Act 1991* and the Commonwealth *Disability Discrimination Act 1992*;

(c) ACTION's ability to improve services and provide the ACT Government with sound advice on meeting current and future needs for public bus services in the ACT was impeded due to poor data management practices;

(d) there were no performance indicators or standards established for the reliability of bus services to guide ACTION's operations and to increase its accountability;

(e) the data used for Service Delivery Reports is inaccurate and incomplete;

(f) ACTION did not report bus accidents to the Road Transport Authority as required by legislation;

(g) ACTION was unable to supply documentation to confirm that daily pre-departure bus checks were conducted by bus drivers;

(h) there were no formal processes or policies in place to provide scheduled refresher courses for ACTION's drivers to update their knowledge and driving skills, or to refresh and develop their skills in other aspects of safety, security and customer service;

(i) ACTION has not prepared procedures for operations of its closed circuit televisions (CCTVs) on buses, to ensure protection of the privacy of the individual and prevention of possible misuse of the CCTVs; and

(j) plans to introduce a replacement ticketing system have been frequently delayed;

(2) notes:

(a) in 2009-2010, the total cost per passenger rose by 8.4% to $6.30 per voyage;

(b) the ACTION subsidy is approximately $80 million; and

(c) the on-going delays in the implementation of a new ticketing system; and

(3) calls on the Government to:

(a) work with all transport stakeholders, including but not limited to, industry associations, unions, operators, passengers and each party in the Assembly to develop a plan to increase bus patronage through making bus travel more appealing rather than making driving and parking more difficult; and

(b) advise the Assembly by 30 September 2010:

(i) when all the recommendations in the Auditor-General's report will be implemented;

(ii) the date the new ticketing system will be operational and the total revenue forgone as a result of the existing faulty ticket machines;

2 **MS BRESNAN**: To move—That this Assembly:

(1) notes that around one third of people who are homeless have a severe mental illness;

(2) is concerned that when people who are homeless have suffered a severe episode of mental illness and exit acute mental health facilities they are likely to still be in a high level of crisis, and yet the ACT Government:

(a) does not permit them to access Step-Up Step-Down mental health facilities which assist clients in the recovery process; and

(b) can, at times, place them in backpacker accommodation, where there is little to no support for the individual in crisis; and

(3) calls on the ACT Government to:

(a) ensure all patients who are homeless and exiting acute mental health facilities are not exited into homelessness, or to unsupported accommodation, such as backpackers, motels or hotels;

(b) move towards making Step-Up Step-Down facilities available to people who are homeless as they exit acute mental health facilities; and

(c) expand the provision of housing to people who are homeless and have a mental illness, including through the Housing and Accommodation Support Initiative, run through Housing ACT. (a) the importance of reducing the ACT's greenhouse emissions as part of the global and national effort to tackle climate change;

(b) that the ACT has set a greenhouse gas emissions reduction target of 40 per cent below 1990 levels by 2020;

(c) that policies designed to reduce greenhouse emissions, and the impact of climate change, may disproportionately impact on low income households;

(d) that approximately 19 per cent of ACT households are considered to be low income; and

(e) that the rising costs of energy will disproportionately affect people who are socially or financially disadvantaged;

(2) notes:

(a) the 2008 report *Social Impacts of Climate Change in the ACT* issued by the ACT Government:

(b) the public housing energy efficiency program; and

(c) the successful operation of the Water and Energy Savings in the Territory (WEST) program; and

(3) calls on the ACT Government to:

(a) develop a triple bottom line assessment tool that is applied to energy policies and programs, and includes amelioration measures to address equity in these proposals;

(b) ensure that the community sector is adequately resourced to advocate on behalf of low income households on emerging energy policy issues such as deregulated pricing, time of use tariffs and National Energy Market consultations;

(c) review the eligibility criteria for the Energy Concessions Program every five years in view of the changing impacts of rising electricity and gas prices on energy poverty;

(d) increase the energy concession to a level commensurate with energy price increases since 2005 and establish a mechanism by which percentage increases in energy prices are automatically applied to the energy concession each year;

(e) consider extending the methodology of the WEST program to other people who are socially or financially disadvantaged;

(f) ensure that those people who are socially or financially disadvantaged are specifically targeted in all energy efficiency policies and programs implemented by the ACT Government; and

(d) that the ACT Government has commissioned reviews into WATS in 2000, 2005, 2007 and 2010;

(e) that long waiting times and lack of vehicle availability continue to be a problem for WATs patrons, despite the information and recommendations from previous reviews;

(f) that a large number of current WATs are smaller vehicles which are unsuitable for the majority of wheelchairs, and that these vehicles subsequently transport few passengers with wheelchairs; and

(g) that the current large number and level of WATs subsidies has not resulted in a reliable service;

(2) calls on the Government to:

(a) undertake a cost analysis of the current subsidies compared to the cost of a dedicated service with salaried drivers;

(b) develop a plan to introduce a dedicated WATs service with salaried drivers that would only service people with disabilities who need WATs;

(a) opportunities for a commercial market in grey water in both commercial and domestic applications and in new construction and retro-fits; and

(b) the Government's urban waterways and stormwater harvesting programs and their associated built wetlands;

(3) without limiting the scope of the inquiry, calls on the inquiry to include consideration of the following matters:

(a) the net economic benefit of paragraphs (2)(a) and (b), with and without:

(i) the impact of the major water security projects; and

(ii) the potential impact of the proposed Murray-Darling Basin Plan;

drawing conclusions in relation thereto;

(b) the economic, environmental and social impact of paragraphs (2)(a) and (b) on the community generally; and

(c) the options and alternatives available for the Government to consider in terms of water conservation initiatives that have the potential to deliver better and more viable economic, environmental and social outcomes; and

(4) calls on the Executive to table the ICRC's final report on its inquiry by the last sitting day in 2011. *(Notice given 8 March 2011. Notice will be removed from the Notice Paper unless called on within 8 sitting weeks – standing order 125A).*
