Dear Minister

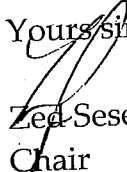

The Committee noted comments in *The Canberra Times* on Saturday 30 May 2009 relating to the planning process for the proposed car park at the Canberra Hospital, and the media release 'Canberra Hospital car park development applications called in for Ministerial decision' you released on Friday 29 May 2009.

As you would be aware the Committee was very interested in the development of the car park and this was discussed with the Minister for Health, at length, at the public hearing on 19 May 2009. At no stage during evidence given by yourself or the Minister for Health was the issue of a call-in raised. The Committee is particularly concerned that the timing of the announcement coincided with the conclusion of the Estimates period, and the resulting inability of the Committee to fully scrutinise the decision.

As a result of the additional information the Committee believe it is right to recall you for a further Estimates public hearing on a date to be determined, to discuss this process and provide the opportunity for you to answer the questions of the Committee.

If you require any further information please contact the Committee Secretary,  
Ms Grace Concannon on 62050129

Yours sincerely

  
Zed Seselja  
Chair
