Question Taken On Notice

MS HUNTER Asked the Minister for Children and Young People:

You mentioned in your opening statement, I believe, a statement around— the minister may have said it, looking at the youth support program and family support program. How is that going? What is the process here? Also, how is that going as it is interacting with the IR review or the review that was also going on—I am trying to think of the consultants that were engaged?

MINISTER BURCH - The answer to the Member's question (second part – youth support program and family support program were answered in the hearing) is as follows:

The ACT Government has commissioned HBA Consulting to undertake a Review of the Industrial Arrangements in the ACT Community Sector. The Consultants have surveyed community organisations, including youth and family support services on their current industrial arrangements. Data is currently being analysed with a report to Government expected early in 2010.

Approved for circulation to the Member and incorporation into Hansard.
