Subject: Draft Variation to the Territory Plan 307 Griffith

Submission

I submit that the Draft Variation to the Territory Plan 307 Griffith is contrary to the legislative intent that community groups be granted Concessional Leases for the use of land for the broader community benefit, and if these community groups no longer require the land for such use, that the land be returned to the Australian Capital Territory (ACT) Government.

I request that the Draft Variation to the Territory Plan 307 Griffith be rejected and not set a precedent for the further reduction of Concessional Lease land in the ACT.
