To the
Standing Committee on Planning and Urban Renewal

This submission is in regards to the

Inquiry into Billboards

Canberra does not need billboards they are road hazards that cause unnecessary distractions and more often than not are a blight on the landscape. I'm so happy to have lived in Canberra for roughly 5 years and would hate to have it changed in this way. We do not need more advertising in our lives. Think carefully before you make this powerful decision that will affect so many lives.

I am an Australian citizen and resident of Canberra who has lived in many locations in the USA. Many localities have billboards and I have always found them to be a distraction from safe driving. They also disrupt the landscape.

Please feel free to contact me if you have any questions or if I need to fix anything to have this email accepted as an official submission

Regards,
Jeremy Michael
