Subject: No Billboards in Canberra please

Categories: PUR

Dear Sirs and Madams

Please do not relax the rules surrounding billboards in the ACT.

In Canberra we enjoy a natural environment, predominated by trees and other greenery. Billboards are an unnatural addition to any urban or even cityscape. The less the better – none preferably. They add to the distraction of motorists, cyclists, and pedestrians. As a parent, they contribute to being pestered by my children for things that they don't need and aren't good for them. In today's world there are plenty of other less intrusive (for us who don't want and appreciate them) ways to communicate any message that might be on a billboard, so don't inflict the message on us as well.

Thank you for your time.

Yours sincerely
Neil Gabbitas
