 Subject: Late, but very short, submission on the subject of billboards  
 Categories: PUR

Dear Standing Committee on Planning and Urban Renewal,

I have only just found out about the public consultation period regarding the proposal to relax Canberra's longstanding ban on billboards. I hope you see fit to allow my late, but very simple submission.

There is no upside to selling off public space and amenity to impose the ghastly blight of billboards on our fair city. We have done very well without advertiser's shouting their messages about stuff we neither want nor need at us from on high.

Please do not sacrifice our local community's great asset of an uncluttered skyline for that lowest of uses; corporate advertising. Not now, not ever. Please consider Canberra pride and lifestyle over the marketing wishlists of externally based businesses.

Kind regards,  
 Jason Doust
