1 September Quarter Results

1.1 Headline net operating balance

The September Quarter 2020 Headline net operating balance (HNOB) for the General Government Sector (GGS) was a surplus of \$272 million, which is \$41 million higher than the September year to date budget of \$231 million.

The improvement in the HNOB compared to the September year to date budget largely reflects higher than anticipated Commonwealth Grants and taxation revenue.

Table 1.1 General Government Sector Headline Net Operating Balance

General Government Sector	2019-20	2020-21	September Quarter YTD 2020		
	Actual	Economic and Fiscal Update	Budget	Actual	Variance

Headline net operating balance	-681,109	-909,543	231,010	272,015	41,005

Note (1): The superannuation return adjustment is added to the Uniform Presentation (UPF) Net operating balance to make up the Headline net operating balance. Together with transactional earnings revenue, this adjustment reflects the long term target annual return on superannuation investment assets of 7.25 per cent per annum.

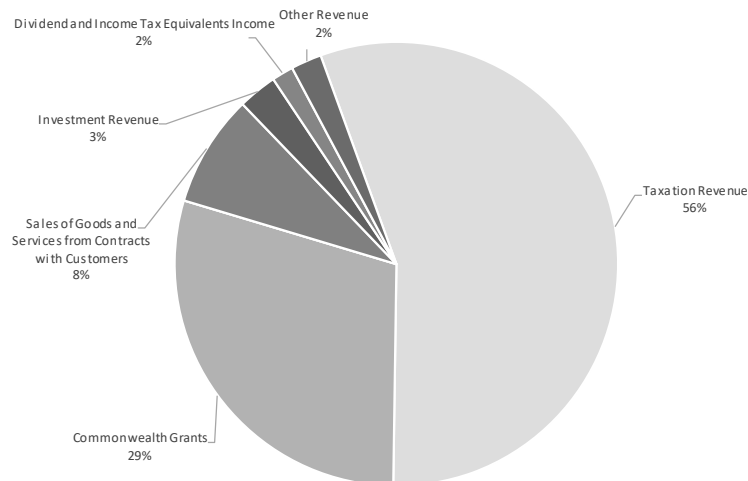

The largest component of GGS revenue is mainly from the Commonwealth Government through GST and grants, followed by own-source taxation.

1.2 Total revenue

Total revenue for the GGS at 30 September 2020 was \$1,826.9 million. This is \$45.3 million higher than the September year to date budget of \$1,781.6 million. Major variances include:

- higher than anticipated Commonwealth Grants revenue of \$26.2 million mainly from National Health Agreements for the provision of public and community health services relating to the ongoing response to the COVID-19 pandemic, combined with the timing of GST revenue; and
- higher taxation revenue of \$16.2 million largely due to increased lease variation charge revenue under the deferred regime.

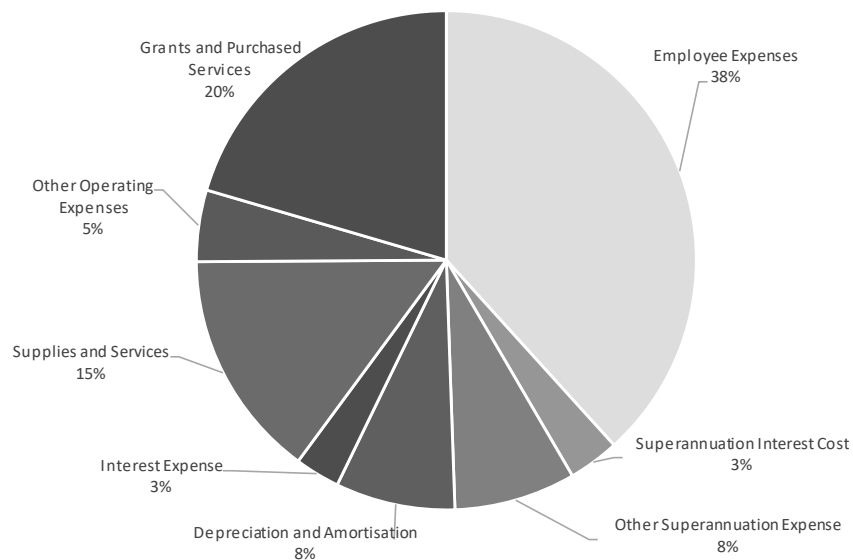

Chart 1.2: Components of General Government Sector revenue (\$m)

1.3 Total expenses

Total expenses for the GGS at 30 September 2020 were \$1,595.1 million. This is in line with the September year to date budget of \$1,593.5 million.

1.4 Balance sheet

The ACT Government continues to maintain a strong balance sheet as seen in the balance sheet measures summary in table 1.4 below.

Table 1.4 General Government Sector key balance sheet measures

	2019-20 Actual	2020-21 Economic and Fiscal Update	2020-21 September YTD Actual	2020-21 Variance (from 2019-20 Actual)
	\$'000	\$'000	\$'000	\$'000
Total assets	35,016,118	35,477,238	35,520,221	504,103
Net debt	3,296,704	4,730,643	3,601,029	304,325
Net financial liabilities	12,003,232	9,530,804	7,744,661	-4,258,571
Net worth	13,030,343	16,158,205	17,292,649	4,262,306

1.5 Net debt

The Net debt of the GGS as at 30 September 2020 was \$3,601.0 million, an increase of \$304.3 million from the 30 June 2020 result of \$3,296.7 million. This variance is mainly due to lower cash and deposits reflective of prevailing cash flow requirements.

1.6 Net financial liabilities

Net financial liabilities of the GGS as at 30 September 2020 was \$7,744.7 million which was a decrease of \$4,258.6 million from the 30 June 2020 result of \$12,003.2 million. This mainly reflects a decrease in the defined benefit superannuation liability valuation. Consistent with the Commonwealth Government's approach to the valuation of their similar defined benefit superannuation liability the estimate utilises a long-term discount rate assumption of 5 per cent. The actual discount rate applied at 30 June 2020 was 1.73 per cent. The use of a higher discount rate decreases the liability valuation estimate.

1.7 Net worth

Net worth of the GGS as at 30 September 2020 was \$17.3 billion, an increase of \$4.3 billion from the 30 June 2020 result of \$13.0 billion. This improvement is mainly due to the variation in net financial liabilities described above.

Attachment A – Accounting Basis

This quarterly consolidated financial management report has been prepared to meet the requirements of section 26 of the *Financial Management Act 1996* (FMA).

This special purpose financial report summarises the financial performance and position of the Territory for the quarter, and the quarter ending 30 September 2020. The Territory's financial statement presentation complies with AASB 1049: 'Whole of Government and General Government Sector Financial Reporting' and is consistent with Australian Accounting Standards.

The 2019-20 Actual reflects the published in the Consolidated Annual Financial Statements.

This report provides financial management information and is not intended to form an audited financial report. Some estimates and assumptions have been necessary to ensure this information is provided within a useful time frame. Any differences will relate primarily to the accounting treatment of specific issues and elimination of internal trading, rather than non-disclosure of the whole of government financial position. Transactions and balances between government controlled entities have been eliminated.

Headline net operating balance (HNOB)

The HNOB is the ACT Government's key measure of the public finances, calculated as the difference between revenue and expenses resulting from transactions, plus the superannuation return adjustment.

The superannuation return adjustment, together with transactional revenues, reflects the long term target annual return on the investment assets of 7.25 per cent per annum. This adjustment is made as under the Government Finance Statistics reporting framework capital growth on financial assets is not included as transactional revenue in the net operating balance. This approach understates investment revenue and overstates the net superannuation expense related to the superannuation liability.

Net debt

Net debt reflects the sum of deposits held, advances received and borrowings minus the sum of cash and deposits, advances paid, investments, loans and placements. Net debt is a useful measure to judge the overall strength of the Government's fiscal position. A positive position indicates that cash reserves and investments are lower than gross liabilities placing a call on future revenues to service these liabilities. A negative position indicates that cash reserves and investments are greater than gross liabilities.

Net financial liabilities

Net financial liabilities takes into account unfunded superannuation liabilities and provides a broader measure of debt than net debt. Net financial liabilities is calculated as total liabilities less financial assets (such as cash reserves and investments). It takes into account all non-equity financial assets but excludes the value of equity held by the General Government sector in public corporations.

September, December, and March Quarterly Consolidated Financial Reports have been prepared using estimated year to date figures for agencies considered immaterial from a whole of government perspective:

- ACT Executive
- ACT Gambling and Racing Commission
- ACT Integrity Commission
- ACT Public Cemeteries Authority
- Auditor-General
- CIT Solutions Pty Ltd
- Cultural Facilities Corporation
- Legal Aid Commission (ACT)
- Independent Competition and Regulatory Commission for the ACT
- Public Trustee and Guardian (for the ACT)
- Electoral Commissioner
- Office of the Legislative Assembly
- Lifetime Care and Support Fund
- Motor Accident Injuries Commission
- WorkSafe ACT
