Answer Due Date: 2 August 2024

10:10 am: What is the total cost of the decommissioning of HRIMS: total expected cost and to-date costs?

CHRIS STEEL MLA: The answer to the Member's question is as follows:

As advised in the response to QToN No. 2 to the Standing Committee on Economy and Gender and Economic Equality's Inquiry into Annual and Financial Reports 2022-2033 (15 November 2023 hearing session), the financial reporting system established for HRIMS does not provide a breakdown of cost by individual phases including decommissioning costs.

From 30 June 2023, the decommissioning costs for HRIMS program have been tracked. The total HRIMS decommissioning costs for the 2023-24 FY was \$3.57 million. This relates to SAP licensing, SpinifexIT termination costs (as identified in QToN 127) and employee and contractor expenses. As at 31 July 2024, the anticipated total HRIMS decommissioning costs at completion is expected to be under \$4 million.
