

Dear Sir/ Madam,

I am writing to express my support in the strongest possible terms of the proposed change to the Territory Plan to allow medium density residential development on Block 15 Section 42 Griffith.

In my humble opinion, this is an ideal site to support the Governments goal of 50% urban renewal in an area where there is a chronic undersupply of apartments and rental accommodation.

One only needs to consider the ACT's incredibly tight vacancy rate to realise that that the silent majority of Canberra's renters, many of whom are struggling to find accommodation in the inner areas where they would prefer to live, would also be fully supportive of this proposal.

Thank you.

John Runko.
