

I am a Canberra Resident who has recently lived in Narrabundah and would like to formally support the Brumbies proposal to seek a variation to the Territory Plan No.307 – Griffith, Section 42, Block 15 to allow for residential development. Whilst i understand the need to preserve the heritage listed oval I am strongly in favour of the redevelopment of the run down eye sore of a bowling club which is utilising valuable land space which could be used for the wider community including a residential development which will be available to a great number of Canberran's.

Regards,

Mark Thompson
