 Subject: ...

The Physical Activity Foundation is a Canberra based health promotion charity which delivers activity programs into ACT Primary Schools, such as the Active Kids Challenge & the Ride or Walk to School program – to combat the current childhood overweight & obesity statistics. Whilst the Foundation has tremendous Government support to deliver on such an important community issue, long term partners such as Eastlake Football Club are critical to our viability & provide the Foundation with its home base, offices at the Kaleen Sports Club. Little commentary is required on the value of Eastlake's support for the Foundation & it is our intention that the partnership continues long into the future.

Cheers,

Lucille Baillie | Chief Executive Officer
