I am writing to express my opposition to the lifting of a ban of billboard advertising in the ACT.

I would ask that the committee consider the following. When have you looked at a billboard and thought "That billboard makes this place better". Billboards are unnecessary and bring no benefit to the public. We are surrounded by advertising everywhere, we don't need any more of it.

I note that point for of the enquiry is;

*4. Ways in which elements of billboard advertising could be regulated in the ACT to limit environmental or aesthetic impact, including number, size, location, advertising periods and content;*

If you wish to limit the aesthetic impact then it is very simple. Leave the ban on billboard advertising in place for the whole of the ACT.
