Please do not rescind the current restrictions. If anything please consider expanding them to close the door particularly on roadside (on verge and median) commercial electronic signage. Road safety message boards fixed and mobile are placed with consideration for public safety. Commercial vehicle mounted are placed without consideration for anything but the conspicuous commercial distraction of drivers who do not need any further competition for their attention.

The ACT has been blessed until recently with a much safer and less distracting roadside. Lets not join the common herd by pandering to shallow self serving commercial interests.
