Environment Protection (Fossil Fuel Company Advertising) Amendment Bill 2024

Master Electricians Australia (MEA) is the trade association representing electrical contractors recognised by industry, government and the community as the electrical industry's leading business partner, knowledge source and advocate. You can visit our website at www.masterelectricians.com.au

MEA are strong advocates for electrification through consumer energy resources (CER) designed to replace fossil fuels to mitigate carbon emissions. It follows that MEA supports this Bill.

Allowing the promotion of fossil fuels at sporting events inherently contradicts ACT's climate reduction goals and legislation. We hope to see a successful outcome of this Bill extended into other areas of advertising.

We look forward to the outcome of this Bill and are available for further discussions regarding CER.
