In relation to:

**DR PATERSON:** Is it possible to link Keno up with cashless gaming so that a consumer could—a customer could enter into a venue in the ACT, they have their digital wallet set up for the venue. Can that also be linked to Keno or is it purely for machines?

**Mr Patel:** It would depend on the solution available. I will take that on notice and see what I can come up with for you.

Gaming Technologies Association: The answer to the Member's question is as follows:—

Integration of any product will require discussions with the respective vendor/licence holder. In respect of Keno, GTA has no oversight of this product so is unable to provide technical advice.
