Subject: Live Music

Dear Sir/Madam

I find it particularly distressing that live music venues in Canberra are fast disappearing as are the likes of McGregor hall (a venue that can be used for same). With most community halls have noise and time restrictions, local bands cannot find a venue to perform. Surely fostering our local music industry is good for local economy and good for the community. I would like the government to take steps to protect and foster live music in Canberra. The time to do this is now!

Please do not hesitate to contact me for further information on this matter.

Regards

Al Phemister
