Dear Nicola,

What a great piece of legislation prohibiting the posting notices on public property or private property. I approve but —

There are Community activities which need a place to advertise what is happening. I am especially thinking about the new Jamison Centre. The outside buildings suffer from poster sticking as there is no public notice board. There used to be two.

I belong to a group providing services especially to older folk but there is no where to advertise our activities at Jamison. We have used Belconnen Market Boards and Belconnen Community News but this is not necessarily reaching our local folk who shop at Jamison.

Provision for Community Activities advertisement does need to be where people will see and become aware of what is going on. I'm not sure of a solution in light of the Committee's deliberations but I am sure there is one.

Yours sincerely
(Mrs) Gillian Painter
