Dear Ms Le Couteur

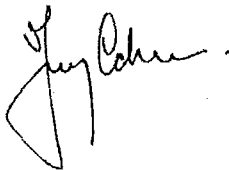

Committee Inquiry

Auditor generals Report No 7 of 2008: Proposal for a gas fired power station and data centre – site selection process.

I refer to your letter of 28 August seeking our comment on a possible adverse reflection in a submission that your committee has received in relation to the above inquiry.

Thank you for referring this material to us for comment. We have no response to make other than to state that CB Richard Ellis and its employees acted on this project with the highest levels of probity and responsibility, as is the case with all the company's activities. We would be happy to respond to any specific questions that your committee may have.

Yours sincerely
CB Richard Ellis (V) Pty Ltd

Senior Director
Town Planning
