

Submission: enquiry in to billboards

20/06/17

To whom it may concern,

I wish to submit a short submission to express my feelings about the importance of keeping Canberra 'advertising free'. I believe the level of advertising seen around Canberra should be either retained, or reduced.

The lack of advertising on Canberra's streets, highways, and roads is what it makes it such a unique beautiful and pure city. I take great pride in living in a city that refuses to sell its integrity to advertising. Any changes to legislation that might weaken this position are surely a negative thing?

Let us keep being influenced by the art, nature, architecture, and people around us, not by the advertisers who want to buy space to push their agendas in to our private lives.

Thank you,

Sarah Lebner
