21 LITERACY RESULTS IN THE A.C.T.

Mr Hanson, pursuant to notice, moved—That this Assembly:

(1) notes that:

- (a) outcomes for literacy in ACT Government schools have been consistently identified as underperforming by reports from multiple highly regarded research institutions and other bodies in the ACT, nationally and internationally;
- (b) a recent report into literacy results in the ACT indicates that performance has fallen over the last 20 years;
- (c) the hard working and dedicated ACT Government school teachers, support and administrative staff who are passionate about achieving the best outcomes for ACT students are being let down by the ACT education system; and
- (d) reasons put forward for declining literacy rates include, equity, school resources, inadequate monitoring and interventions, teacher shortages, teaching methodology, inadequate phonics instruction, staff and principal workload, overcrowded schools, student behaviour and violence, run-down school facilities, curriculum, and initial teacher training; and

- (2) calls on the ACT Government to conduct an independent inquiry into literacy performance in the ACT and how results could be enhanced.

Ms Berry (Minister for Education and Youth Affairs) moved the following amendment:
Omit all text after that “That this Assembly”, substitute:

“(1) notes that:

- (a) the ACT is the highest performing Australian jurisdiction in reading literacy, as measured through international assessments PISA and PIRLS;
- (b) promoting greater equity in learning outcomes in and across ACT public schools is an ACT Government priority, and has been one of the ACT Education Directorate’s strategic objectives since 2018;
- (c) the equity gap in reading narrowed between 2018 and 2021;
- (d) however, 2022 data shows the equity gap in reading has widened, confirming that the sustained duration of the pandemic has had a more significant impact on the learning of less advantaged students in the ACT;
- (e) this system level outcome requires a system level response; and
- (f) hard working and dedicated ACT Government school leaders, teachers, support and administrative staff are passionate about achieving the best outcomes for ACT students, and should be supported at the system level to provide the right supports to students who are performing at all levels in their classrooms; and

(2) calls on the ACT Government to:

- (a) conduct an independent inquiry into literacy performance in the ACT that provides advice on how results and supports for educators and students could be enhanced, and works with and reflects the views of academics, educators, unions, parents and carers, and students; and
- (b) table the inquiry’s full report by the last sitting day in June 2024.”.
