Ms Loft took on notice the following question(s):

MS CARRICK: There was a review into the building to make this decision. Are you able to provide the review?

Ms Loft: Yes, there were several reviews, so the building was built, as I said, in 1989 and that was a result of a review undertaken by the federal government in 1986 into rehabilitation and geriatric services of the ACT. Then in 2020, the infrastructure division contracted SAFM Solutions to undertake a review of the then 2017 asset management plans, and that was to look at updating the plans and the asset priority index ratings for all health infrastructure with the view to then update building asset management plans.

So we did commence consultation in 2020 of that review with the output to produce an updated building asset management plan, and also assess functionality assessment, but that was placed on hold due to COVID, and legislative changes meant that we could not access aged care, so we could not get in and conduct technical condition assessment because there was no access to the building.

So then in — by 2023 the asset management plan was updated. We can give you a copy of that if that is what you would like, and that outlines maintenance requirements for the short and long term of the building.

MS CARRICK: That would be good, thank you.

Ms Loft: Yes, okay.
