Subject: Draft Variation to The Territory Plan No. 307 Griffith - Change of Zoning

To the Standing Committee on Planning, Public Works and Territory and Municipal Services;

I am in favour of this proposal and have no problems with urban infill on the Brumbies land at Austin Street.

I have been a Canberra resident since 1989 and I have seen lots of urban infill in the last 22 years.

All those developments in the past seem to have work well and have provided good social infrastructure to the neighbourhood.

I believe this project would be a success and the community would benefit from the new facilities.
