\$973,384

Change in % of Total Government Revenue 2004-2015
-18.8%

Additional funding required for 2015 to match 2004 proportion of Total Government Revenue
\$2,012,305

- Notes:
- Prepared by Jack Lloyd of the Childers Group, ACT
 - Expenditure includes all arts grants to individuals, groups and organisations reported in ACT Government Annual Reports
 - Full breakdowns with all grants listed by year and category will be made available on the Childers Group website
 - In some years, Glassworks and BAC line spending is not included in Government Annual Reports so estimates are made
 - A breakdown of 2005-06 funding was not included in the relevant Annual Report so figures for that year are interpolated
 - 2006-07 does not include any Out Of Round or Fellowship funding, these were not reported for the year
 - 2015-16 data is not reported as yet and totals are based on the amounts advised by artsACT
 - Inflation is based on the RBA calculator, population is based on ABS figures at 30 June
 - Total government revenue comes from ACT Budgets for each year
 - Capital works included as outputs in Annual Reports are excluded (specifically hailstorm repair and building upgrades)
 - Public art is excluded except where it is known to have been temporary and non-acquisitive
