**ANSWER TO QUESTION TAKEN ON NOTICE**  
**15 November 2018**

Asked by Ms Lawder:

In relation to:

**MS LAWDER:** So I think one part of the issue earlier this year—I think there were a number, but—was it a bridge at the golf course that sort of blocked a drain? And when that rushed through all of a sudden that was one of the causes of major damage. Is that correct?

**Mr McHugh:** Absolutely. There was a temporary footbridge, I think which was from the Yowani golf club, which was dislodged during the flooding and found its way to block a couple of culverts under a particular road and that did cause some flooding. Yes.

**MS LAWDER:** What kind of bridge is there now at the golf course? Do you know?

**Mr McHugh:** No, not off hand. I would have to take that on notice.

**Mr Chris Steel MLA: The answer to the Member's question is as follows:—**

The previous temporary steel bridge has been replaced with a new concrete footbridge.
